

We have a reason to celebrate - join us!

We would like to toast with you, since our foundation in October 2020 we have reached another milestone in our short company history. Due to the rapid development of our own machine production, our team has grown massively, and we have reached the capacity limits at our previous production facility of 500 m².

The change to a GmbH and the relocation of the company headquarters to 1,650 m² of production and office space make us very proud as a team and clearly show us that we are on the right track.

*We cordially invite you to our **"Open House Day"**:*

on June 16, 2023 from 10 a.m. – open end,

at the new location

Heidt 1f in Hückeswagen.

Enjoy a special day with us and meet the management and all employees in a personal atmosphere!

Take a look behind the scenes. See our company through the eyes of an employee, we are curious to see what new aspects of our company you will discover.

Meet all the employees you have only met on the phone so far.

Have we made you curious? Then we look forward to welcome you personally at our open house day!

Bring your families with you, because we have also prepared something for the children.

We look forward to your visit.

See you on June 16th!

Looking forward to a beautiful and eventful day with you

Oliver Schmitz and the whole wrap4u team
